phaser.js

## Languages

English (Australian native)  
learning Swedish

## Want to get in touch?

Hi there! My name is Richard and I've been a qualified electrician for six years now. Born and raised in Australia, I moved to Sweden five years ago - since my partner won the battle of where to settle down. (Yes she is Swedish). Getting to know Sweden and settling in, in a new country has also attracted me towards a career change. I've always had an interest for numbers, but also thrive on creativity and solving problems. That is how I came across coding as it meets so many needs at once.
